Credit Card # _____ Expiration _____
Do Not Exceed \$ _____ In Combined Parts and Labor Costs. Signature: _____

Refer to www.tacticalinc.com for Product Descriptions and Shipping Instructions

It is our goal to service your suppressor as quickly as possible and at the lowest possible cost. Please assist us by reading and complying with the following instructions:

1. You MUST return your suppressor for any service. We are unable to sell parts individually (even to dealers).
2. You MUST enclose a copy of the FRONT of your Form 4 or a copy of your FFL. Suppressors received without sufficient documentation will be immediately returned in the same condition as shipped.
3. You MUST include credit card payment information with your suppressor when shipped. We will not bill for repair service and will not proceed with the repair service until payment information is received.
4. We expressly reserve the right to decline to service any suppressor solely at our judgement.
5. Suppressors returned for service MUST be returned with all of the parts. We are unable to service suppressors missing pieces per ATF regulations prohibiting individuals from possessing additional suppressor parts.
6. Suppressor repairs are billed at our shop rate of \$55 / hour, billed in 15 minute increments. To minimize your repair costs, suppressors that are shipped already disassembled require considerably less shop time to repair than suppressors that have had multiple 10's of thousands of rounds through them, potentially taking hours to disassemble.
7. Parts are billed individually based on the parts required to return the suppressor to functional status, subject to availability. Individual part prices are:

TAC 16	TAC 52	TAC 65	TAC 67	TAC 62, 63, 64
\$15 Baffle (each)	\$18 Baffle (each)	\$15 Baffle (each)	\$20 Baffle (Alum)	Subject To Availability
\$40 Front Cap	\$25 Front Cap	\$25 Front Cap	\$32 Baffle (SS)	\$TBD Baffle (each)
\$ 5 Spacer (each)	\$30 Rear Cap	\$30 Rear Cap	\$40 Front Cap	\$TBD Front Cap
		\$ 4 Spacer	\$45 Rear Cap	\$TBD Rear Cap

8. Unless instructed by you to the contrary, we will service your suppressor based on parts and labor costs until the combined repair costs exceed the retail price (as posted at www.tacticalinc.com) of the suppressor. If the suppressor can not be repaired for less than the retail cost of the suppressor (or your designated cost threshold noted herein), we will notify you prior to starting any work. If you prefer a higher or lower repair cost threshold, please indicate so herein.
9. Damage to the suppressor tube can not easily be repaired. Cosmetic damage to the tube (scratches etc) WILL NOT be repaired as a function of our standard repair service.
10. Its possible for you to have damaged your suppressor tube to the point that it can not be repaired. Per ATF guidelines as the original manufacturer, we will, at our option and based on availability, offer a replacement suppressor with the identical serial number for the retail cost of the suppressor plus \$50 for the additional handling costs associated with custom engraving etc.
11. Return shipping and handling (via USPS Priority Mail with \$500 insurance) is \$20.

Rev 2.6
